As soon as these statements are published, preliminaries for acquisition will have to be commenced, and when the stage of inquiry and the passing of awards is reached there will be enough work for a whole-time Officer. In fact, in view of that consideration a Special Revenue Officer has been appointed. The idea of the City Magte continuing in his work, and taking up the land acquisition work in addition, does not seem feasible.

The objection may be withdrawn.

10 A reply may be sent to this effect and the Presidt may be informed that Mr. Ramon Rao will, if required, be relieved of his duties as City Magte on the 1st Proxo, to take up the acquisition work, commencing with the properties required for the new Market, a notification with regard to which is being published separately at once.

My Dear Sir

With reference to my official letter No 232 dated 8th Jan 1917, intimating that the probable date when Mr B S Ranoji Rao's services may be placed at the disposal of the Municipal Council for Land Acquisition work connected with the City Improvement schemes, will be intimated after the declaration of the properties intended for acquisition by Government and that the Senior Vice President of the Municipal Council would be requested to issue preliminary notices, I beg to say that as Mr Ranoji Rao has been appointed Land Acquisition Officer by name, the Senior Vice President cannot also take order for the acquisition of the said properties and cannot therefore issue preliminary notices It will therefore be necessary that Mr Ranoji Rao should take up the acquisition work in the Municipality from the very beginning immediately after the properties are notified for acquisition If Government consider that he is not likely to have sufficient work at the commencement, he need not be relieved of his Magisterial powers, but might be asked to hear ?Such appeals &c , as may be referred to him by the District Magistrate

? For a very important reason also, his continuing to be a Magistrate is necessary as it will considerably facilitate the expeditious disposal of work The greatest delay always occurs after the award is made and before properties are taken possession of According to section 47 of the Land Acquisition Regulation, the Acquisition Officer should apply to a Magistrate to enforce surrender of the land, if however he is also a Magistrate he can enforce surrender of the land to himself which is a great advantage and save time and trouble all round

D.O. No. 511

City Municipal Office,
Bangalore,

Dated the 12th March 1917

Rev 94-16-35.

My Dear Sir

With reference to your D.O. letter No. 5520/Ml. dated 23rd February 1917 on the subject of Mr. B.S. Ranoji Rao continuing to exercise Magisterial powers during the period of his deputation as special Land Acquisition Officer, I would explain that the proposal was not that he should continue as City Magistrate taking up Land Acquisition cases in addition I am sorry if my letter No 421 dated 6th February 1917 should have given rise to that meaning

2 There is nothing inherently inconsistent according to the Land Acquisition Regulation in the Land Acquisition Officer exercising Magisterial powers as Deputy and Assistant Commissioners are usually Magistrates and Section 47 contemplates the steps that should be adopted if the Acquisition Officer is not a Magistrate. In this City, past experience has shown that all delays permissible under the law are availed of before possession of a property is surrendered to the Acquisition Officer It was with the view of avoiding the enormous amount of correspondence in sending copy of award, notice, reply of party and report of Engineer to the Magistrate and delay in applying to and obtaining orders from another Magistrate which again involves heavy clerical work in Court, that I ventured to suggest that Mr. Ranoji Rao may not be divested of his Magisterial powers.

3. I had also another purpose in view which I was not hen in a position to specify for want of accurate data The eneral revision of taxes in the Municipality has now nearly n completed and it is likely that in about 10000 properties the

take up the Acqn work, commencing with the properties required for the new market, the notification sent this with report to them is being published separately.

Yours Sincerely

B.W. Pursuant to 13.3.17

MC 94-16-35.

City Municipal Office,
Bangalore,

Dated the 12th March 1917.

My Dear Sir

With reference to your D.O letter No 5520/M1 dated 23rd February 1917 on the subject of Mr. B.S Ranoji Rao continuing to exercise Magisterial powers during the period of his deputation as special Land Acquisition Officer, I would explain that the proposal was not that he should continue as City Magistrate taking up Land Acquisition cases in addition I am sorry if my letter No 421 dated 6th February 1917 should have given rise to that meaning

3. I had also another purpose in view which I was not then in a position to specify for want of accurate data The General revision of taxes in the Municipality has now nearly been completed and it is likely that in about 10000 properties

the

the assessment will be enhanced Even if in 25% of cases the persons interested, resort to Section 86 of the Municipal Regulation and appeal to the Magistrate, the Court of the City Magistrate will simply be flooded with Municipal cases and it is not likely that the Municipal Council will know their Demand, Collection and Balance for some years to come Since this work will devolve upon the Magistrate jus at the time when the merest preliminary work pertaining to Land Acquisition will be proceeding, I thought that perhaps Mr Ranoji Rao's continuing to take up cases under the order of the District Magistrate would be a great advantage If this does not commend itself to Government, I request that you may be so good as to make suitable arrangements in consultation with the District Magistrate for the expeditious disposal of a very large number of appeal cases during the first two or three months of the ensuing official year
